Sisa baris pertama berwarna biru, dan font-size: xx-large; dalam huruf kecil. Sisa paragraph akan menjadi ukuran danwarna font p::first-line { default color: #0000ff; font-variant: small-caps; E. The : After Pseudo-Element ← → C i file:///D:/PROGRAM/TUGAS SEMESTER III/Pen ... ☑ ☆ » This is a heading The ::after pseudo-element inserts content after the content of an element This is a heading Note: IE8 supports the content property only if a !DOCTYPE is specified. h1::after { ::after pseudo-elemen dapat digunakan untuk memasukan beberapa

konten setelah isi elemen

content: url(smiley.gif);

F. The: Selection Pseudo Element

Select some text on this page:

This is a paragraph.

This is some text in a div element.

Note: ::selection is not supported in Internet Explorer 8 and earlier versions.

Note: Firefox supports an alternative, the ::-moz-selection property.

```
::-moz-selection { /* Code for Firefox */
    color: red;
    background: yellow;
}
::selection {
    color: red;
    background: yellow;
```

Contoh ini membuat teks yang dipilih berwarna merah pada latar belakang kuning.
